

EMPLOYMENT OPPORTUNITY

Project: More Than Our Skin
Date: November 1, 2023 – December 31, 2023
Position: Sound Engineer

Hull Bay Productions has an exciting opportunity for a Film/Video student mastering in Sound Design to mix the final cut of the film, More Than Our Skin (morethanourskin.org).

The sound engineer will capture and mix all the audio elements in the film as the final phase of this production. This includes dialogue, sound effects, and music. You'll work closely with the director, to ensure that everything sounds just right.

Work will be done at the Hull Bay Production studio, located in Leominster, MA.

Interested candidates should apply on Hull Bay's website (or click on the link below) and include a link to your audio samples.

APPLICATION

This is not an entry level position. We are looking for a seasoned audio engineer who has mixed films in the past.

Requirements:

- Previous film mixing experience
- Attention to detail
- Proficient in Final Cut and DaVinci Resolve

The successful candidate will be proficient with audio tools and plug-ins and be able to work under our tight deadline.

References are required by at least one Fitchburg State University professor.

Salary to be negotiated.

Any additional questions, please contact Toni Magras at tonia@hullbayproductions.com.
